

6030 Changes for Manitoba

February 9, 2012

MPI fees have been increased. Version 6030, once installed, will update the MPI Report fees located in the inventory section of your fee schedule to the 2012 fees.

Included with this update:

- Ability to create Appointment Types & Colours by practitioner and to default appointments to horizontal or vertical booking
This option is found under the Setup menu, Doctor Defaults.

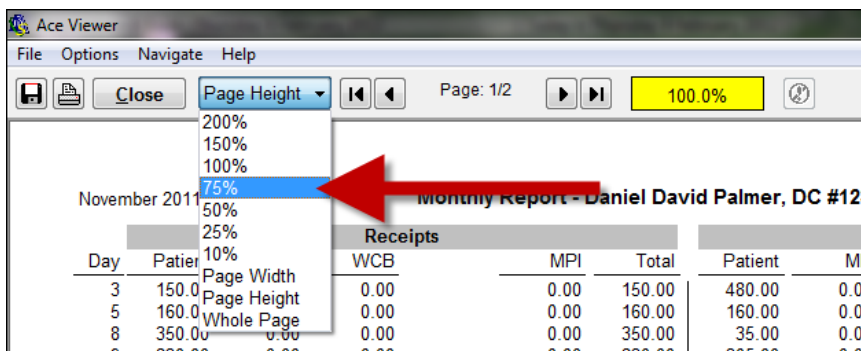

Click **Edit my Types** to edit the Appointment types for this doctor only. The list that appears is the Clinic list.

You can **Add**, **Delete** and **Edit** any type without affecting the appointment for other users. The '*Is Vertical*' (**ISV**) field is for determining whether the appointment should be scheduled horizontal or vertical. When check marked the appointment will be booked vertical.

Once you have completed the appointment types move into Edit my Colours to choose the colours for your appointment types.

Don't forget to select **Use my Own** and **Edit the Default Appointment** as the previous default appointment was from the Clinic list.

- PMP no longer requires Control Panel Regional Date Settings. This means summary sheets and other reports will not misbehave due to different date formats on your computer.
- Report zoom level is now 'sticky'. The PMP report viewer will now save the display settings that you choose. The display will not change until another setting is chosen.

- Changes to the Patient Information Personal Tab to capture additional information and prepare for future enhancements

Pat No. 1
 Doctor of Record David Palmer, DC #1234
 Phone Numbers: Home (905) 731-0702, Work (416) 633-3000
 Patient Type: Cash
 Patient Category: MVA
 Payment Type: Cash
 First Name: Adrienne, Last Name: Linton

- New pop-up option that adds a pop-up to an appointment.

Date	Time	Status	Dr.	Location	Appointment Type	Comments
Sat,01-Oct-2011	3:15 PM	Confirmed	BP		0 IFC	
Tue,04-Oct-2011	10:00 AM	Unconfirmed	LH		1 Massage Therapy 60 m	
Fri,11-Nov-2011	9:15 AM	Confirmed	DD		0 Adjustment	
Mon,14-Nov-2011	8:15 AM	Unconfirmed	DD		0 Adjustment	

Callout 1: Click here to add a comment to a booked appointment.

Callout 2: Type a comment into the screen area provided.

Callout 3: A checkmark appears when a comment has been attached to an appointment.

The pop-up will appear in the normal manner.

Pop!
 [Appointment Comments]-----
 Book exam next visit.
 Edit Pop Ups OK

Additional ChiroWrite & PMP Integration:

- Charges selected in ChiroWrite during Exam and SOAP appear in patient activity when posting in PMP
- Alerts created in ChiroWrite have the option to appear on patient appointments in PMP
- The patient kiosk (additional module & charges) will mark patients as arrived in PMP.
- Simplification of the network setup required for the PMP ChiroWrite communication. This means only one networked computer in the office requires PMP & ChiroWrite to be open in order to transfer information between the programs.

1. The **PMP setting** is in **Setup / Computer Defaults**.

This machine sends information to PMP

2. The **ChiroWrite setting** is in **Help / Update Configuration**.

This machine sends information to Chirowrite

Set both settings on one computer.
