

PATIENT MANAGEMENT PROGRAM Download and Installation Instructions for PMP Update

Download and Install PMP Update

Do a PMP Backup!

Open your internet browser and access the following website. **Note**: This link can be accessed from the notification email.

www.alpha.to/dl/installPMP.exe

A screen will appear named *File Download*. Depending upon whether you are networked or not will determine whether you choose **Run** or **Save** at this point.

<u>Run</u>

Click Run if you are at the only computer where the PMP is located.

Click Next as required, then Finish.

<u>Save</u>

Click **Save** if you have multiple computers running PMP or if you are downloading on a computer other than the one with PMP.

A *Save As* screen will open asking you where to save the file. Choose the location where you wish to save the file. Click **Save**.

If you save the file to a USB drive you can use it to update all your computers.

Close all screens when the download is complete.

On <u>each</u> PMP computer insert the USB drive or CD where the downloaded file is located.

Double click **My Computer**. Double click the drive that contains the update. Double click the **InstallPMP4070.exe** icon or file. Click **Next** as required, then **Finish**.
