

# PMP Bulletin

## PMP Update Version 3.0.6.0

June 4, 2009

A new PMP update is available from the *OCA website*. [Click here](#) to be re-directed to the OCA website to download the PMP version 3.0.6.0. update. You will need to log in to the OCA website with a user name and password.

This version includes **all** chiropractic forms offered on the WSIB website including the FAF, Form 8, Treatment Extension, and all Program of Care Assessment, and Care and Outcomes Summaries.

PMP users will now be able to create WSIB forms from within the patient file in a similar fashion to MVA forms. Basic demographic information will populate the form upon creation and form data will transfer to subsequent forms once input. This means that **no** information is duplicated! Detailed instructions for using WSIB forms are posted on the website.

Please see the instructions posted for downloading and installing the update.
